## LIGHTING, CONTROLS, AND ACCESSORIES

### SIT PROFLAME II REMOTE — *Ignition and flame controls with five flame heights*

Lighting controls available through a remote or an iOS and Android compatible app that allows user to manage LED lighting in the ember bed across the full-color spectrum and halogen downlighting.

### FIREPLACE PANELS — *Choose from five fireplace panel sets*

BLACK MATTE  
(Standard)

BLACK TEMPERED GLASS

BLACK FLUTED FIBER

OFFSET BLACK  
FIBER BRICK

STACKED GRAY  
FIBER BRICK

### 6" REDUCTION PANEL KITS

This kit reduces the viewing area height from 24" to 18". It includes the reduction panel and side drywall stops.

### OPTIONAL POWER VENT KIT

Although all Summits are designed for natural draft with our standard vent run, there is an optional power-vent that can be easily added to all Summits in the event the standard vent-run can not be met or if the vent needs to terminate horizontally.
